COMDTNOTE 5600
1 OCT 1985

COMMANDANT NOTICE 5600

CANCELLED: 31 MAR 1986

Subj: Directives, Publications and Reports Index

1. PURPOSE: This notice transmits the current listing of directives, publications and required reports.

2. DIRECTIVES AFFECTED: The previous edition of this Index, COMDTNOTE 5600 dated 22 May 1985, is superseded.

3. DISCUSSION:

   a. This edition reflects changes of directives and publications through 20 September and of reports through 25 September.

   b. Format has been substantially revised. The Index now shows only that a unit is required to maintain a document; it does not list quantity required. All publications have been consolidated onto a single numerical and a single alphabetic listing for easy reference. Lengthy non-standard distribution is listed in a separate section.

   c. Commanding officers are encourged to return unused extra copies of publications to stockpoints. The intent is to maintain only the number of copies necessary to operate (including at least one of each required publication).

   d. Units which are collocated and have the same commanding officer may maintain a consolidated library. Quantities held may be reduced per 2.c. above.

* NON-STANDARD DISTRIBUTION:

4. ACTION: Commanding officers shall:

   a. Review directives and publications on hand to ensure that all new material intended for the unit has been received and that cancelled material has been removed from the active files.

   b. Order publications in accordance with the ordering instructions on page 1.

   c. Correct the reports tickler file to reflect current reporting requirements.

5. CORRECTIONS: Comments, suggestions and notification of errors should be addressed to Commandant (G-CMA).

MARTIN H. DANIELL
Acting Chief of Staff

ORDERING REPLACEMENT COPIES AND RETURNING EXTRAS

1. To order, determine whether the publication is authorized for your SDL symbol. If yes, go to step 2. If no, prepare a Request for Allowance Change (GG-5323).

2. If the material is classified, justify the need in a letter to the sponsoring division at Headquarters. If not, go on to step 3.

3. Determine the stock point. See the List of Stock Points for the proper form, usually the CG-4428 shown at right. Use a separate form for each stock point for direct mailing. Do not send to Headquarters unless a division is listed as the stock point.

4. Do not order personal desk copies. The request should be signed by an officer authorized to sign by direction.

5. Return any copies considered extra directly to the stock point. No form DD-1149 or other accountability is necessary for unclassified material. Keep at least one up-to-date copy of each publication. Units which are collocated and have the same commanding officer may maintain one consolidated library.

REQUEST FOR DIRECTIVES

REQUESTING ALLOWANCE CHANGES

1. Use the form CG-5323, the front of which is shown at right. Neither photocopies nor the previous edition should be used.

2. Carefully follow the general instructions on the form, then mail via chain of command to Commandant (G-CMA).

3. Commanding officers are authorized to reduce quantities of each required publication. The form is therefore unnecessary for allowance reductions unless the reduction is to zero. For example, if you get 5 Personnel Manuals but only need 2, simply return the extras to the stockpoint. If you get 5 but need 0, then complete the form.

REQUEST FOR ALLOWANCE CHANGE

(Retain Yellow Copy and Forward to Commandant (G-CMA) via Chain of Command)

GENERAL INSTRUCTIONS

A maximum of five (05) directives/publications may be entered on this form. All of the directives/publications, however, *must* be authorized by the same sponsoring division, i.e., all by G-PE, etc. Refer to the Directives, Publications and Reports Index for sponsors. Fill in your address, SDL symbol and sponsor at bottom.

CHAPTER 4 - REPORTS

PART 1 - INTRODUCTION

This section is included to inform all Coast Guard activities of the intent and objectives of the Reports Management Program, and to provide a listing of all approved reports required to be submitted to the Commandant on a recurring basis.

The objectives of the Reports Management Program are to ensure that:

1. Reporting requirements are not imposed on field activities unless the data requested are necessary to the function of the requesting office.

2. Data obtained from reports are adequate for the purposes for which used, provide accurate and timely information, and justify their cost of preparation.

3. Instructions for report preparations are adequate and up-to-date.

4. Units requested to prepare the reports are the best source of data.

The Report Control Symbol (RCS) assigned to each approved report serves two purposes. First, it is an identification device, such as a stock number or form number, the purpose of which is to relate the report to its prescribing directive and to any forms which may be involved in its submission. Second, it gives the preparing office the initials of the Headquarters Office to which the report is submitted. All approved reports submitted to the Commandant shall bear the Reports Control Symbol, as follows:

1. Letter Report - The letters RCS and the appropriate Reports Control Symbol, in parenthesis after the subject, as:

   Subj: Annual Report of Records Holdings (RCS # G-CMA-1013)

2. Form Report - Upper right hand corner of the form.

It will be noted that the listing provided does not include all reports which are submitted to the Commandant. Certain reports, because of their content, use, or purpose, have been designated exempt from the Reports Management Program. Also, because of their duration, one time reports, which have an RCS number followed by the letters "OT" are not included in this publication. Exempt reports are not assigned a Reports Control Symbol.

The code letters shown in the frequency column of the lising are abbreviations for the frequency of reports submission, as follows:

A - Annual	BW - Bi-Weekly	SA - Semi-Annual
AR - As Required	D - Daily	SM - Semi-Monthly
BE - Biennial	MO - Monthly	W - Weekly
BM - Bi-Monthly	Q - Quarterly	3A - 3 Per Year

The requiring directive should be consulted for actual due dates, number of copies and method of submission.

CHAPTER 4 - REPORTS

PART 1 - INTRODUCTION

To ensure the accurate and timely submission of reports, each Coast Guard unit should maintain a tickler file or reports calendar for all reports required of the unit by the Commandant. This file may be expanded to include feeder reports and any other reporting requirements established on a recurring basis.

All offices prescribing reports placed on field activities are responsible for ensuring that Commandant (G-CMA) receives notification of changes, corrections, additions and deletions to the reports inventory. Each office will review their section of the reports inventory and notify G-CMA of any reports which are no longer required, have no useful purpose or duplicate other information collected by Headquarters.

Suggestions and recommendations concerning improvement of any of the reporting requirements in this section are invited, and should be directed to Commandant (G-CMA).
